

INTERACT WITH YOUR DASHBOARD TO GAIN BUSINESS INSIGHTS

(Viewers Guide)

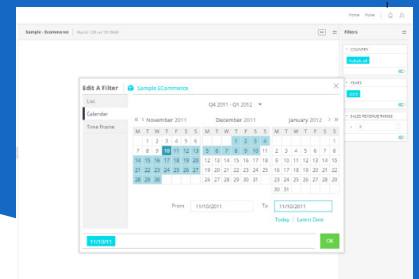

SET UP PERSONAL DATA

Right click on the value you want to monitor, then define the condition that triggers the alert: Threshold, Automatic or Always. Manage the alerts in the Pulse page.

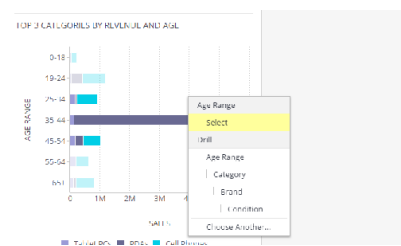

TOGGLE VALUES IN A WIDGET ON OR OFF

Toggle values on the values panel, then click Apply to save the changes

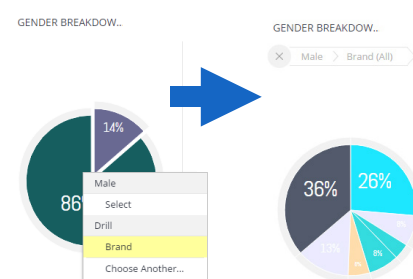

MODIFY PREDEFINED FILTERS

Turn a filter on or off, select specific values for a given field or edit the filter by clicking on the pencil icon

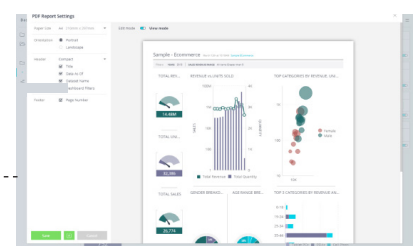

FILTER THE DATA

Select single or multiple elements in your widget to filter the entire dashboard

DRILL DOWN INTO GRANULAR

Right-click on an element in a widget to drill down into a dimension and break it down by another

DOWNLOAD DASHBOARDS AND WIDGETS

Download the entire dashboard as a PDF file or an image; Or download a widget as an image or a CSV file by clicking on the options menu.

Be aware that when using a shared dashboard, any changes you make to the dashboard affect your local copy only.

- You can revert back to the original dashboard by selecting it and clicking Restore Dashboard.
- Whenever the dashboard owner republishes the dashboard, the new version will override your local copy.
